

Python Software Developer – Django

Company overview

We are a family founded, fast-growing, multi-award-winning company providing managed hosting and cloud services to businesses and government. Our mission is to be the cloud partner of choice, we are customer focused and strive to deliver exceptional service, robust security and leading-edge technology.

Although founded in 2002 we pursue a start-up mentality to ensure we remain current in a highly competitive marketplace. Memset offers an extremely friendly environment, where you will be technically and professionally challenged, while being supported by the wider Memset team around you. We provide our team members with a solid benefits package, and are focused on training to help grow and develop both individuals and teams.

Job Function

If you're a talented programmer with excellent Python skills and front-end Django development experience, we offer a dynamic environment in which to progress your career and practice Agile development with continuous integration.

As a Python Software Developer, you will have the opportunity to work on a number of exciting new projects. You'll also help with the maintenance of existing systems, ranging from the customer facing control panel to our cloud compute platform.

Using your excellent Python skills, you will join a small and very busy development team. As such, you should be happy working on your own without excessive supervision.

This is an extremely friendly environment. You will be technically and professionally challenged but our family will be there to support you. We look after our own, not just with a solid benefits package, but with the culture around us as well. We offer a relaxed atmosphere with a casual dress code, ping-pong table and many other great perks.

Your responsibilities will include:

- Fluency in Python
- Familiarity with Subversion or any other SCM (git or Mercurial, for example)
- Web front-end development experience with Django

As part of the recruitment process you will be required to complete personality profiling, aptitude tests as well as a basic DBS check.

Benefits:

Discretionary bonus, private healthcare (incl dental), life insurance, critical illness insurance, 25 days' holiday plus bank holidays, holiday reward scheme, childcare vouchers and many more.

Location:

Memset Head Office: Unit 87, Dunsfold Park, Stovolds Hill, Cranleigh, Surrey, GU6 8TB

Due to our rural location you should be able to drive and have your own car. Alternatively, we offer a shuttle bus service from Guildford train station via Godalming.

How to apply

If you would like to apply for this role please send your CV and covering letter to jobs@memset.com.
